

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents conclusions and suggestion that are based on the findings and discussions in the previous chapter.

A. Conclusion

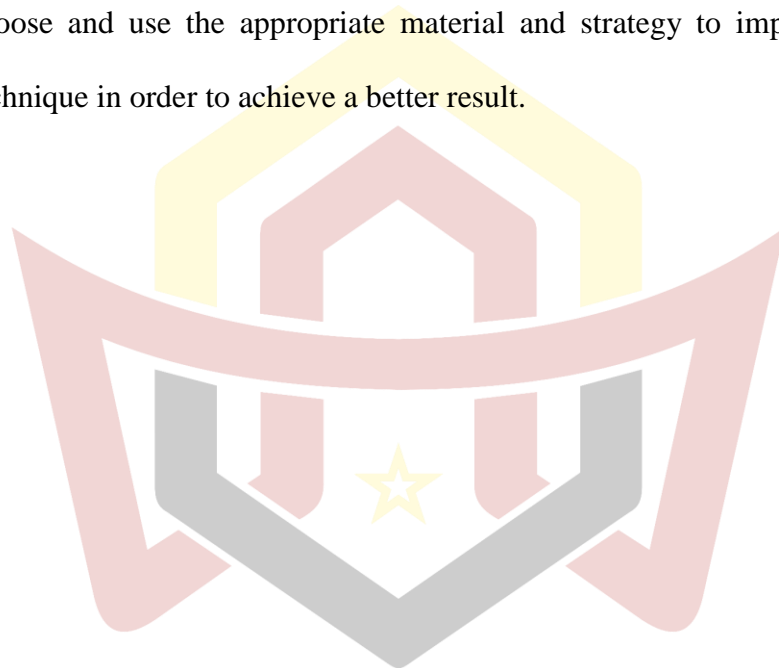

Based on the result of the data analysis presented in the previous chapter. It can be concluded that :

First, the use Clustering Technique guided students in generating and organizing ideas of students' writing. The improvement had not been acquired spontaneously, but after giving treatment in fourth meetings. It meant that the students' writing skill has been improved step by step especially in accordance writing analytical exposition text.

Second, this research had several advantages for researcher, the teacher and also for the students. The important things were Clustering Technique helped students to develop and organizing idea. Clustering Technique provides students with opportunities to think and develop their idea.

B. Suggestions

The researcher found that not all of writing components that could be improved significantly such as vocabulary and mechanics. There was only a little improvement. So, it is suggested to the other researchers to choose and use the appropriate material and strategy to implement the technique in order to achieve a better result.
