

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter deals with conveying conclusion and suggestion.

A. Conclusion

Based on the finding of the research derived from the data analysis presented in the previous chapter, it can be concluded that:

1. Teaching writing by using brainstorming technique gives significant effectiveness to improve students' writing ability, related on content, organization, vocabulary, language use and mechanics. The value of t-test in students' writing post-test score was 37.16 is bigger than t-table 2.42. This result is seen by the degree of significance 1% on the table.

In fact, the analyzing of the data showed that the students' score in writing increase.

2. The result of the research indicated that the students' mastery in generating the ideas as reflected in the content of their writing developed better after the application of brainstorming technique. The mean score gained by the students in pretest in the term of content as mentioned above was different about 7.59 than the mean score of post test. It explained that the brainstorming technique gives positive influence in generating ideas.

B. Suggestion

The success in teaching doesn't depend on the lesson program only, but more important is how the teacher presents the lesson and uses various techniques to manage the class more comfortable and enjoyable. Dealing with the research finding, the following suggestion as the outcomes of the study is put forward.

1. For the teacher in teaching and learning process are hoped to create a good atmosphere in classroom to make teaching writing more effective, meaningful, and interesting to the students.
2. It is suggested to the teacher to choose and use the appropriate material, technique and strategy in teaching writing. One of the techniques that can be used to improve students' writing ability is brainstorming technique.
3. In using brainstorming technique, researcher also should be able to solve the problem when there are any students who do not active in the classroom. Therefore, it is suggested that teacher should prepare an alternative ways to make them be a nice teacher that the students interest in learning process.
4. The finding of this research hopefully can be the beneficial reference for the next investigator in conducting the better research next time.
