

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

Based on the result of the data analysis presented in the previous chapter, it can be seen that outlining technique can improve students' writing abilities. Although not all of writing components that improved significantly. It can be proved by the students' writing score in pre-test and post test. It can be concluded that teaching writing by using outlining technique gave significant effect to students' writing abilities. In fact, the analyzing of data showed that the students' score in writing were increased. The students' writing score in post test was higher than students' writing score in pre test. It can be proved by the highest score of students that increased significantly. It means that the use of outlining technique gave significant effect to improve students' writing ability. But, Outlining technique increased students' writing ability in terms of content, organization, and language use. There was not all of writing components that improved through the implementation of the technique. Outlining technique help the students to develop their ideas in written form and organize it into the correct sentence. The contribution of outlining technique is to help the students to make an easy outlining. Outline helps the students to develop their idea in written descriptive text.

## **B. Suggestion**

The researcher found that not all of writing components could be improved significantly such as mechanics. There was only a little improvement. So, it is suggested to the other researchers to choose and use the appropriate material and technique to be implemented in order to achieve a better result.
