

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter deals with conclusion and suggestion. After researcher analyzed the data, here is the conclusion and suggestion can be described below.

A. Conclusions

Based on the data analyzed in the previous chapter, it can be concluded that Group Investigation Technique gave significant effect towards students' writing ability at class VIII of Junior High School 5 Pariaman. Through Group Investigation Technique, the students are able to write better than the students whom were taught with Conventional Strategy.

The student's writing of experiment class by using Group Investigation Technique in post test got mean scores (80.40) while in control class by using Conventional Strategy got mean scores (64.44). It showed that, the mean score of experiment class had increased than control class. It showed that, the use of Group Investigation Technique had significant effect towards students writing Ability.

B. Suggestions

Some suggestion are given to the participants who are closely related to this research. The suggestion are made based on the conclusion of the research. They are presented as follow:

1. For the English teacher

The English teacher should consider the students' need and interest before designing the writing materials. It is important for the teacher to use

various techniques that are appropriate with the students' needs because it can reduce the students' boredom and monotonous during teaching and learning process. It is useful for them to use Group Investigation Technique as one of the appropriate techniques in teaching writing.

2. For students

Through the Group Investigation Technique, the students have opportunities to share their ideas to friends and group. It also improve students' ability

3. For other researcher

The weakness of this study is its limited time in implementing the action of this technique in teaching process. Others researchers who are interested in the same field are recommended to implement this technique in a longer period to get more maximum results, so that the improvement will be significantly soon.
